NEURUM

A design collection that goes well beyond traditional workwear

When designing our apparel, we prioritise not only the usefulness and practicality of the clothing but we aim to look further and give you, our customers, an attractive design and a comfortable fit.

We did not have to look too far to find inspiration for our latest NEURUM collection. We only had to open our eyes while walking down the street and everything was clear. We all put our individual observations together and started to play with the design, development of samples, and fitting. We created a collection for a confident man who is not afraid of hard work but wants to maintain an attractive and sexy look while working.

These properties and the masculine appearance are underlined by sharp lines and the fit of all types of clothing for the upper body. Our work jacket, a light jacket and a winter parka form a harmonious unit.

What makes our NEURUM collection so unique:

- » **Lowered waist and slim fit** of the NEURUM pants that enhance the overall modern and young look of the whole collection.
- » **Flexible waist** that ensures that the pants fit you perfectly whether you work standing up or sitting down.
- » **Unique hood highlighting the unique design** that pushes the NEURUM collection beyond traditional workwear.
- » **Practical pockets and now so-important badge loop** which are an indispensable part of the pants.
- » Accessories consisting of a **designer tool bag, a fanny pack, a cap, shoes and gloves**, are an essential part of the collection.

However, the **NEURUM** collection offers more than an attractive and eye-catching design and fit.

From the moment we got the idea and started to shape the **NEURUM** collection, it was clear to us that the unique design must be complemented by new sophisticated materials that would top off the attractive look of the collection.

That is why we developed unique materials – **Trifibetex** and **TrifibetexPRO**. These materials and the design are the building stones of the workwear portion of the **NEURUM** collection.

The classic line in the **NEURUM** collection is made using the **Trifibetex** material, and **TrifibetexPRO** forms the base for our performance pants and is also used in our workwear jackets.

However, since we saw room and felt the need to bring the **NEURUM** collection to perfection, we came up with another idea – camouflage. We created our own design for the camouflage all-over-print specific by its geometrical appearance.

Last but not least, the **NEURUM** collection was also inspired by the classic denim jacket as we all know it, and that is why the last collection line features a denim jacket, pants and shorts.

4 NEURUM collection lines:

- » The **CLASSIC** line of the NEURUM collection made of Trifibetex meets the strictest demands on workwear.
- » The **PERFORMANCE** line based on the TrifibetexPRO used for performance pants and, as an additional material, in extremely stressed parts of workwear jackets.
- » The **CAMOUFLAGE** line with its own characteristic design featuring geometrical shapes.
- » The **DENIM** line inspired by the classic denim jacket consists of a denim jacket, pants and shorts.

With its concept and the composition of the individual parts, the NEURUM collection goes beyond the classic workwear collections and offers its customers a new perspective of workwear and maximum comfort.

MATERIAL

Trifibetex®

elastic innovative fabric

TRIFIBETEX® is a unique blend of 3 kinds of fibre – cotton, polyester and elastic fibre spandex. This combination ensures maximum comfort and flexibility during any work while maintaining functionality.

The largest content of natural cotton fibre (62 %) gives the fabric a very pleasant feel to the touch, high breathability and excellent absorbency. Thanks to polyester (35% content), the strength of the fabric is increased moreover, it gives the material low shrinkage and creasing, shape stability, dirt resistance and on the whole, it increases the product's durability when frequently washed.

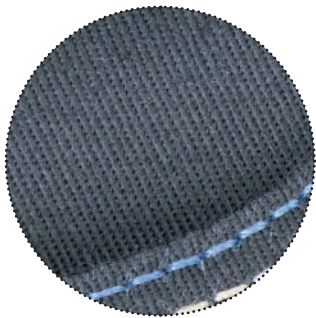

Spandex (3% content in width) adds a great feature to the material – stretching up to twice its length under tension and then returning to its original length thanks to the shape memory.

The combination of cotton, polyester and spandex, the strongest CANVAS weave and the ideal thread count gives the TRIFIBETEX® material the best properties:

Strength, Breathability, Colour fastness, Absorbency, Elasticity, Dirt resistance.

High wearing comfort and high comfort in contact with skin

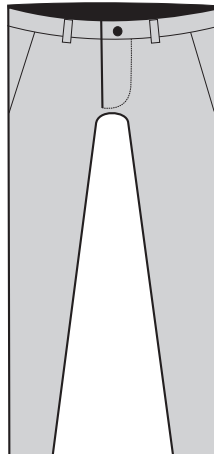

The unique TRIFIBETEX® material meets the demanding requirements for high wearing comfort, easy maintenance and long product life and, thanks to its high cotton content, also for ecology.

CUT

SLIM

- » Cut with low waist and slim leg shape
- » Thanks to the material with a high content of elastic fibre, the trousers are very comfortable and without any restrictions of movement
- » Cut for everyone who prefers a modern and youthful look

MATERIAL

TrifibetexPRO®

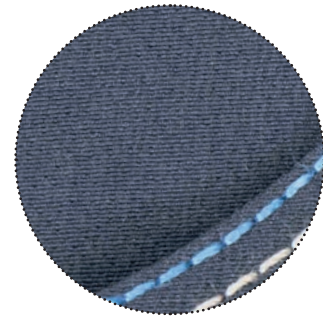

TrifibetexPRO – another textile material from our range that feels exceptional to wear.

By combining NYLON and SPANDEX fibres, we have taken the best of both worlds. 90% NYLON fibre content guarantees high strength of the fabric when dry and when wet, high abrasion resistance, high elasticity, easy maintenance and resistance against chemical agents and alkali. One of the important properties of NYLON fibre is its strength which increases as the fibre heats. This ensures higher temperature resistance.

Another characteristic property of the TrifibetexPRO fibre is its cool and pleasant feel.

10 % SPANDEX elastic fibre content in the warp and wet gives the TrifibetexPRO unique elasticity. SPANDEX fibre in the fabric ensures elongation under tension to up to twice its length and immediate return to the original length when the tension is released. The fabric maintains its shape stability and gives TrifibetexPRO the utmost utility properties.

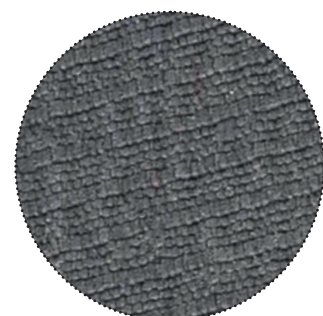

What also makes the TrifibetexPRO unique is the twill weave, the structure of which guarantees the strength, elasticity and durability of the fabric. TrifibetexPRO can also be called 4waystretch.

MATERIAL

CORDURA®

Designed for living and built to last, the original durable CORDURA® fabric has proven performance in many of the world's toughest environments. Made with high tenacity air jet textured nylon 6,6 filament yarns.

NEURUM

CLASSIC LINE

The CLASSIC line of the NEURUM collection made of TRIFIBETEX meets the strictest demands on workwear.

The CLASSIC line comes in 4 beautiful colours: dark olive, navy, petrol blue and anthracite.

You can choose from shorts, $\frac{3}{4}$ pants or full-length pants depending on the weather or your needs. All of them are made from the unique TRIFIBETEX material with CORDURA on the knee part.

The stylish working jacket comes in two versions – with zipper or with snap fasteners and a hood.

The CLASSIC line can be complemented with a T-shirt, cap, backpack or fanny pack in the same colour. You can add a light softshell jacket or a winter jacket that will bring more warmth to your everyday job.
